This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. A CALENDAR

TO THE

FEET OF FINES

FOR

LONDON & MIDDLESEX.

VOL. I.:

Richard I. to Richard III.

— BY —

W. J. HARDY, F.S.A., AND W. PAGE, F.S.A.

LONDON:

HARDY & PAGE, 21, OLD BUILDINGS, LINCOLN'S INN.

ALL RIGHTS RESERVED.

1892.

PREFATORY NOTE.

THE form of this Calendar has been adopted in consequence of the personal observation of the compilers that—no matter how full may be the description of a document—the searcher is not satisfied unless he sees either the original or an actual copy of it: for this reason, the labour of so-called exhaustive calendaring is generally in vain. What is aimed at in these pages is to give such a Calendar as will *lead* the searcher to the information he requires.

The terms used to denote the parties, or groups of parties, to the Fine, such as *petens deforciens*, etc., have been omitted, and the person or persons conveying are separated from the person or persons receiving by the word "and" in italics.

Those who desire information as to the nature and use of Fines will find a full description of these documents in Mr. Scargill-Bird's "Guide to the Principal Classes of Documents preserved in the Public Record Office," pp. 118, 119.

The best thanks of the compilers of this Calendar are due both to Mr. Scargill-Bird and to Mr. G. H. Overend for their ever ready assistance in deciphering faded or obscure words in the documents here calendared. The compilers have much pleasure in acknowledging the care displayed by their printers, Messrs. Gibbs & Bamforth, of St. Albans, which has so much lightened the labour of passing these sheets through the press.
